Summary — Frontend Developer with experience in building responsive, scalable web applications with React, Next.js, Vue and Nuxt. Developed AI-powered learning platforms and healthcare applications featuring LLM-integrated chatbots, AI-driven medicine recommendations, text-to-speech, and patient record management for doctors and patients. Built custom Twilio Flex plugins to extend contact-center workflows. Proficient in CSS, Sass and Material UI, REST API integration with Axios, state management, and performance optimization with lazy loading and Vite. Deploys production apps on Vercel and Render, collaborating in agile teams using Git/GitHub.

Skills

Languages HTML, CSS, JS, Vue, Nuxt, React, Next, C++

Soft Skills Team Leadership, Problem Solving

Projects

Taxation Website

- Developed a fully responsive company website using React and Material UI, enhancing client engagement and accessibility across devices for Australian market.
- Built an integrated admin dashboard to manage employees and send quotations, streamlining business operations and improving efficiency.

Portfolio Websites

- Designed and delivered multiple responsive portfolio websites using Vue with advanced animations and effects for improved user experience.
- Implemented modern UI practices with CSS, Sass, Material UI, Motion, and custom JavaScript/CSS animations to achieve sleek, dynamic interfaces.

E-commerce Stores

- Developed Vue-based e-commerce websites with integrated admin dashboards for product, order, and user management.
- Implemented responsive layouts and optimized performance to ensure seamless shopping and checkout experiences.

Education

University Of Central Punjab

Bachelor of Science in Computer Sciences

2020 - 2024

Punjab Group of Colleges

FSC in Pre-Engineering

2018 - 2020

Courses

- Web Development - HTML and CSS Basics, Vue Basics to Mastery from Coursera
- Python - Python with Automation from Coursera
- WordPress Course from ACM UCP Student Chapter

Experience

Ibtidiah Solutions, Lahore, Pakistan

Front end Developer

Dec 2024 – Present

- Developed and maintained responsive web applications using React, Next, Vue, Nuxt, CSS, and Material UI, ensuring cross-device compatibility.
- Built and optimized reusable UI components and dashboards, improving performance and reducing development time by 20%.
- Integrated REST APIs with Axios and implemented animations using Motion and custom JavaScript/CSS for enhanced user experience.
- Collaborated with cross-functional teams in an agile environment, using Git/GitHub for version control and code reviews.

Freelancing

June 2021 - Present

- Delivered 10+ high-performance web applications, reducing client bounce rates by 15% and improving overall user experience.
- Collaborated with clients to define project scope, successfully delivering 100% of projects within budget and deadlines.
- Designed and developed 10+ dynamic websites, including portfolios and e-commerce platforms, increasing client conversions by 15% and enhancing site performance.
